

M.O.M – Comptia Certification Quizzer

CompTIA certification programs are the recognized industry standards for foundation-level information technology (IT) skills

CompTIA vendor-neutral certification programs are known throughout the technology community as one of the best ways to break into the information technology field and build a solid career. Many companies preferentially hire people with certifications.

Already certified? Acquiring additional CompTIA certifications will add to your current credentials and pave the way to more lucrative and challenging positions. Top technology companies like Cisco, Hewlett Packard, IBM, Intel, Microsoft and Novell use CompTIA certifications as electives or equivalents to their own certification tracks.

The MOM exam simulator is a comprehensive Test Preparation Tool designed to closely simulate Comptia Certification testing environment in both question content and testing routine. Each Test Quizzer includes the following features:

- 100 Questions per module
- Randomized Questions
- Automated Study Notes
- Score by Objective
- Adaptive or Non-Adaptive
- User Friendly Interface

Courses Covered:

- A+ Core Certification
- A+ O/S Certification
- Network+ Certification
- Server+
