

M.O.M. for CCNA

(Named after our famous Master of MCSE testing Software)

MOM offers you the most effective way to prepare for your CCNA exam. MOM provides a realistic test environment so that you will be fully prepared to take the actual exam!

- **Convenient Anytime, Anywhere Test Preparation**
- **Experience the Exam Process BEFORE Taking the REAL Exams**
- **Questions and Environment Similar to Actual Exams**
- **Test Mode for Timed Exams**
- **Study Mode for Help as You Practice**
- **Provides Score and Reports Weak Areas You Need to Improve**
- **Runs Right from Your Hard Drive for Easy 24/7 Access**

CCNA CERTIFICATION MEANS SUCCESS!

The Cisco CCNA credential reflects your knowledge of networking and Cisco technology. With our CCNA training series, candidates pursuing their certification can prepare and feel confident when going to take their test. At the conclusion of this course, you will be prepared to pass the exam and acquire your CCNA certification credentials. Along with these skills come increased job opportunities and financial rewards.

THE SURE WAY TO PASS THE EXAMS!

No matter how good the training materials, just studying for the CCNA may not be enough. MOM looks, feels and behaves like the actual exams. Once you complete our MOM, you will know exactly what to expect when you walk into the testing center.

MOM includes two different modes: Test Mode and Study Mode. Test Mode features a timed testing environment, just like the real exam, with a scoring report when you complete the test. The report will indicate any weak areas in your knowledge so you can pinpoint exactly where you need to improve. Study Mode is designed specifically to help you gain further knowledge by providing feedback on questions and correct answers as you need them.

System Requirements:

- Intel® Pentium® II 133 MHz
- 32 MB RAM
- 6 MB Hard Drive Space
- Windows 9.x/ME/NT 4.0/2000/XP
- Email Address
